DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

By way of this Examiner's Amendment, the following changes are made in the claims.

- A.* In claim 26, line 2, delete "set" and insert in its place --group--.
- B.* In claim 27, line 2, delete "set" and insert in its place --group--.
- C.* In claim 43, line 1, delete "set" and insert in its place --group--.
- D.* In claim 44, line 1, delete "set" and insert in its place --group--.

Authorization for this examiner's amendment was given in a telephone interview with Robert J. Stern, applicants' attorney, on October 21, 1999.

Allowable Subject Matter

Claims 25 to 30, 42 to 47, 49, and 50 are allowed.

The application having been allowed, formal drawings are required in response to this Office action.

The following is an examiner's statement of reasons for allowance: The Examiner has given careful consideration to applicants' remarks filed on September 17, 1999. In view of

Art Unit: 1775

applicants' remarks about the rejection of all claims under 35 USC § 103(a), the Examiner withdraws that rejection because none of the prior art teaches, suggests, or discloses a two layer cover for a radio frequency transceiver having both a polymer layer and a water vapor barrier layer. Reconsideration of the prior art reveals that there is no teaching or suggestion for combining a polymer layer and a barrier layer in order to build a cover for a radio frequency transceiver as claimed by the applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Examiner cites U.S. Pat. No. 4,484,098 (Cullen, et al.) as relevant prior art. The Cullen, et al. patent was mentioned in the Holland patent which had been cited by the Examiner in a rejection of applicants' claims under 35 USC § 103(a). The laminated structure taught by Holland is the same as the structure disclosed in the Cullen, et al. patent.

Conclusion

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Robert Koehler whose telephone number is (703) 308-1974. The Examiner
